## Vega Scoreboard

## Vega

Our engineers have developed the scoreboard Vega mainly for football and rugby. Its high-tech features include amber LED's providing crystal-clear display both day and night.

Furthermore even the spectators in the highest rows can easily read the score thanks to a 55° vertical viewing angle.

The VEGA product is available in three LED digit sizes: VEGA 200 (30 cm), VEGA 320 (50 cm) and VEGA

400 (50 cm for the scores, 80 cm for the time). Although the smallest led size device of the range, the VEGA 200 has a clear display with a viewing range of up to 150 metres. The LED brightness is automatically adapted to the surrounding light through an integrated sensor.

Besides a two-digit score display (standard 0-19, optional 0-99) for each team, the VEGA is also fitted with a four-digit display showing the play time. Aluminum information plates can be placed on the front of the scoreboard. This feature enables team NAMES to be changed quickly. Of course, ample advertising area is offered right in the middle of the VEGA 320 and VEGA 400 boards. An extra VEGA CLOCK module can be mounted to the board. An optional DU radio-controlled time is also available.

The optional addition of the VEGA TEAM NAMES module allows alpha-numerical text to be displayed.

The VEGA 400 is a high-end scoreboard composed of two separate modules. The first shows the play time and the second is for the score and advertising purposes. The casing is made of aluminum and guarantees the best protection against the elements. On request, the modules can be mounted on a fixed stand such as on optional legs. During maintenance, easy access is allowed from the back of the display. All the scoreboards are controlled by the VEGA CONTROLLER. This control console allows simple and user-friendly operation. The software updates are published on our website on a regular basis.

200

Product number	3412.902 (0-99)
Overall dimensions	1.9 x 1.18 x 0.15 m
Characters height	30 cm
Power supply*	230 VAC
Power consumption	150 VA
Weight	80 kg

320

Product number	3412.903 (0-19) 3412.913 (0-99)
Overall dimensions	3.2 x 2.0 x 0.15 m
Characters height	50 cm
Power supply*	230 VA
Power consumption	300 VA
Weight	135 kg

320 team names

Product number	3412.923
Overall dimensions	3.2 x 0.48 x 0.15 m
Number of characters	16
Characters height	21 cm
Power supply*	230 VAC
Power consumption	115 VA
Weight	40 kg

400 team names

Product number	3412.924
Overall dimensions	4.0 x 0.48 x .015 m
Number of characters	20
Characters height	21 cm
Power supply*	230 VAC
Power consumption	150 VA
Weight	48 kg

400 (0-9)

Product number	3412.904 (0-9) 3412.914 (0-99)
Overall dimensions	4.0 x 2.4 x 0.15 m
Number of characters	50 cm
Characters height	80 cm
Power supply*	230 VAC
Power consumption	500 VA
Weight	240 kg

400 (0-99)

Clock

Product number	3412.912
Overall dimensions	1.5 height x 0.15 m
Clock diameter	90 cm
Power supply*	230 VAC
Weight	80 kg

Controller

Product number	3400.900
Overall dimensions	285 x 210 x 84 mm
Power supply*	230 VAC
Power consumption	12 VA
Weight	1.5 kg

\*115 VAC on request
